WORK EXPERIENCE

Full Stack Developer (Remote)

Clym Inc [🔗](#)

09/2022 - Present

Delaware, USA

A global Accessibility & Data Privacy website compliance solution

Achievements/Tasks

- Developed and maintained Clym's core products; the open-source Accessibility Tools desktop app and the Compliance Scanner service, used for thousands of automated scans across client websites
- Built and maintained multiple microservices spanning frontend, backend, and DevOps components, ensuring scalability and reliability across environments
- Collaborated with the team on feature planning, architectural decisions, and release coordination in an agile environment
- Wrote technical documentation and conducted code reviews to maintain high code quality

Full Stack Developer

Popusmart [🔗](#)

06/2021 - 12/2021

Ankara, Turkey

A no-code tool to increase e-commerce sales, build email lists, and engage with your visitors in just 5 minutes.

Achievements/Tasks

- Contributed to both frontend and backend development of Popusmart's main web platform using JavaScript and Node.js
- Performed debugging, QA testing, and version releases to ensure platform stability and performance
- Supported automation and deployment workflows using Ubuntu, Selenium, Node.js, and Docker

Contact : Emre Elbeyoglu - emre@elbeyoglu.com

Software Development Intern

Popusmart

01/2021 - 05/2021

Achievements/Tasks

- Developed CRO Checker, a freeware tool for website analysis used by thousands of users
- Automated regression and functional testing with Katalon Studio, significantly reducing manual QA time

EDUCATION

Bachelors in Computer Technology and Information Systems

Bilkent University [🔗](#)

09/2018 - 06/2022

3.61 GPA - High Honours

A Levels

Roots Millennium Schools

09/2016 - 06/2018

4.0 GPA - Valedictorian
